

**COPELAND COATING
COMPANY, INC.**

ACTION-PAVE®
ATHLETIC SURFACES

ACTION PAVE ACRYLIC COLOR COATING PRODUCTS

To be applied to tennis, basketball, volleyball, handball, badminton and shuffleboard courts, hopscotch, running tracks and any other recreational surfaces.

ACTION PAVE ACRYLIC CRACK AND LEVELING BINDER PATCH -

A super durable acrylic emulsion specifically designed for mixing with mineral aggregate (silica sand) and portland cement to patch cracks, level low spots and smooth paving joints and other surface irregularities.

ACTION PAVE ACRYLIC RESURFACER -

Designed to be the filler coat over new asphalt courts or on pitted, oxidized, older surfaces and in cases where the porosity of the pavement necessitates filling and smoothing.

ACTION PAVE ACRYLIC FILLER -

Consists of 100% acrylic emulsions, mineral fillers, special reinforcing pigments and pure silica sand that is applied over the ACTION PAVE ACRYLIC RESURFACER or directly to existing color coated surfaces to provide a uniform and controlled pigmented texture.

ACTION PAVE ACRYLIC FINISH -

The final coat applied to the surface. This 100% acrylic emulsion provides added durability and protects the surface against the sun's damaging ultraviolet rays.

ACTION PAVE ACRYLIC CUSHION AND SUPER CUSHION -

If you are looking for added resiliency **ACTION PAVE CUSHION** is the answer. 100% acrylic, with special granulated rubber particles, our three (3) coat CUSHION SYSTEM is softer and easier to play on for extended periods of time.

For those of you who demand "The Ultimate" **ACTION PAVE SUPER CUSHION** is a five (5) coat system with unsurpassed shock absorption to cut down on leg injuries and reduce overall tennis fatigue. Utilizing a larger gradation of rubber particles on coats 1, 2 and 3, we build the overall thickness to approximately 1/8" to 1/4". Unquestionably "The Ultimate" in resilient, acrylic surfaces.

ACTION PAVE ACRYLIC WHITE LINE PAINT -

Using the same special reinforcing pigments and pure silica sand that is found in our other coating, ACTION PAVE ACRYLIC WHITE LINE PAINT is the most durable, longest lasting and whitest line paint available.
